

# Fall Feast™

## Grow Healthier Plants and More Tonnage Naturally

Fall Feast is a fall food plot blend handcrafted by consultants at Midwestern BioAg. The blend contains macro- and micronutrients to stimulate soil biology and create an environment where plants thrive. Created to save food plotters time and money when planting, Fall Feast is a two-in-one blend of seed and fertilizer.

### Product Characteristics:

- **One Pass Application:** Fall Feast saves times with planting and fertilizing in one application.
- **Reduced Error Margin:** With the Fall Feast blend of 40# for .25/acre, margin of error when seeding is reduced.
- **Benefits of Carbon Matrix:** Fertilized with carbon-based, TerraNu Nutrient Technology™, the Fall Feast blend increases mineralization levels in the soil, making other soil nutrients naturally available.
- **Quality Performance:** Fall Feast consists of high-quality handpicked seeds that work best with Midwestern BioAg's biological food plot system.
